

Co-investment in Competitive Grants Scheme: Application Form

The scheme involves PHA providing a cash input to a competitive grant application submitted to a different Australian funding agency (eg. Agrifutures, Australian Eggs, Australian Research Council). PHA funding becomes available if the supported grant is approved by the funding agency.

Conditions of the Scheme

- Open to competitive research projects from researchers working in the broad areas of poultry nutrition and gut health
- Open only to principal investigators from institutions other than those in the Agrifutures Consortium which is funded separately for work in this area. This is to enable support for infrastructure and staff in non-consortium institutions.
- Support of up to \$60,000 in cash for projects depending on PHA Industry Committee assessment.
- Applications will require submission of a draft of the project Preliminary Research Proposal (PRP) to PHA as it is anticipated to become a co-funder of the work.
- Applications will be reviewed and scored by the PHA Industry Committee. Committee members are bound by confidentiality. Feedback may be provided and will constitute a form of industry consultation for your application.

Applicant Information

Research Project Title:	
Project Leader:	Position:
Institution/Organisation:	Member of Agrifutures Consortium? Y/N
Address:	
Contact details:	
Funding scheme applied for:	
Total budget requested from funding agency:	
Budget component requested from PHA:	
Percentage of total budget requested from PHA:	

I(we), the undersigned; agree that if this application is successful the cash contribution of Poultry Hub Australia will contribute to IP arising from the project and negotiations on ownership of such IP should include PHA. Also, that in publications and presentations arising from this work, the support of Poultry Hub Australia is acknowledged.
